# IDESCO

Idesco Mobile Coder

Mobile app for configuring Bluetooth settings of

8 CD 2.0 MI readers

Product features and benefits

- Easy and convenient
- Reads readers' Bluetooth settings automatically
- Implements Bluetooth configurations without configuration cards
- Configure re-read delay, connection distance and security levels, and name the readers with a mobile device

Idesco Mobile Coder is a mobile application for configuring the most essential Bluetooth settings of Idesco 8 CD 2.0 MI readers with your mobile device. This application enables easy and convenient mobile access deployments with Idesco Mobile Lite solution and Idesco's mobile compatible RFID readers.

Idesco Mobile Coder application is compatible with Idesco's 8 CD 2.0 MI series readers. Please learn more about 8 CD 2.0 MI readers in their datasheet, available in https://idesco.fi/product/bluetooth-nfc-rfid-reader/.
